Advancing Education & Research

If you are looking to network with experienced dental specialists from around the world, WCIA is for you. It brings together professionals from all fields of dentistry and features a diverse and stimulating programme to address the wide-ranging needs of dental professionals, as well as others interested in implant dentistry and aesthetics.

Participants should leave the congress refreshed, challenged and informed of the latest trends and opportunities in the business and practice of implant dentistry.

During the congress, you will have the opportunity to:

- Watch presentations from renowned world experts in implant aesthetics
- Learn about the latest developments from international and regional experts
- Enjoy face-to-face encounters with your peers worldwide
- Profit from a carefully prepared scientific programme
- View the latest technology, equipment, products and materials in implants and aesthetics
- Explore the 290 hectare rural campus including sculpture trail, nature trail, gardens, wood and two lakes, as well as the sports centre with climbing wall and leisure facilities.

Warwick Arts Centre is situated at the heart of the University of Warwick in Coventry. One of the largest arts centres in the UK with audiences that number 200,000+ a year, it's much more than a single venue
